

July 2022 Community Newsletter

New WFWRD Website

WFWRD has a new website! Check out our new website that launched in July. You can visit us at the same link: www.wasatchfrontwaste.org. Our new website is designed to be easily accessible and innovative. Follow the Recycle 101 tab to learn more about clean recycling, or hit the Services & Requests tab to request a specific service. Can't find something? Use the Chat feature on the Website, or give us a call and we will help you out (385-468-6325).

New Move-In Box Pickups

Just moved into your new place and are overloaded with cardboard moving boxes? WFWRD is now offering box pickups for new residents in the District! Visit our website to fill out a service request and we will schedule to pickup your boxes.

In order to request a box pickup, you must be a new resident of the property. Please remove any plastic packaging, Styrofoam, and other non-recyclable materials other than tape from the boxes. Additionally, please break down and flatten the boxes before stacking them in a 4 ft. x 4 ft. pile.

Honk, Honk! WFWRD Truck Wraps Promoting Recycling on the Go!

Driving in style! Check out our new truck wraps. Did you know aluminum can be recycled infinitely? In fact, 97% of all soft drink aluminum cans are made of aluminum, and the average aluminum can in the U.S. contains 40% post-consumer recycled aluminum. Additionally, the lifespan of aluminum is about six weeks, meaning it takes only six weeks for a beverage can to be manufactured, filled, sold, used, recycled and remanufactured! When buying soft drinks, try going for the aluminum cans rather than the plastic bottles.

Recycling Tip #48

Recycling one aluminum can saves enough energy to run a television, or operate a computer for three hours.
